State-by-State Disclosure Status

For which states does this degree program meet the state-determined educational requirements for professional licensure or certification?

Use to indicate the appropriate status for each state.

Disclosure alignment: Consistent with peer Missouri programs, SCC affirms that the Pharmacy Technician program **meets educational requirements in Missouri only**. For all other states, SCC has **not made a determination** that the program meets licensure requirements.

Professional Licensure Disclosure

Updated: January 2026

Additional Notes

1. SCC makes no claim about the applicability of its academic programs to any state-established requirements outside the domain of the educational criteria of academic programs designed to prepare students for state-level licensure.
2. **For Domestic Students / U.S. Residents:** Professional licensure requirements and determinations of which academic programs fulfill them are established solely by individual states and are subject to change without notice. SCC updates these disclosures periodically; however, SCC cannot guarantee that the information is always current or accurate.

SCC cannot guarantee an individual's attainment of any state-established professional licensure or certification, in any field, in any jurisdiction. Prospective and current students should always consult with the appropriate licensing authority in the state(s) in which they intend to practice to determine current licensure requirements and program compatibility.

For International Students: SCC makes no representation as to whether its programs meet professional licensure or certification requirements outside the United States. Students intending to practice outside the U.S. should consult the appropriate certifying agency in the relevant country.
